

# vPad-Rugged 2™

vPad-Rugged 2 is much more than an Electrical Safety Analyzer - it's the heart of your Preventive Maintenance process. Using one of our CMMS Interface Apps, work orders can be downloaded at the start of the day. Automated Preventive Maintenance routines ensure that PMs are consistently carried out per OEM requirements. Completed PM records are uploaded to your CMMS to automate closure of open work orders

## Key features:

- Tests to NFPA 99, AAMI-ES1, IEC60601 and IEC62353 standards
- Field upgradeable by installation of optional Apps
- Built-in wireless communication enables transfer of data from remote sites to corporate CMMS systems
- Can be configured to retrieve test data from non-Datrend Instruments
